Dept. of Agriculture, Forest Service, Pacific Northwest Research Station, 2007 OCLC Number: (OCoLC)131177696 Subject: Public lands -- Recreational use -- United States -- Planning. Excerpt: . . . An Assessment of Frameworks Useful for Public Land Recreation Planning sources of adverse impacts; it imposes a requirement that in the presence of uncertainty, extreme caution be exercised in any intervention (Cooney and Dickson 2005). Because of an increasing recognition of the limits of contemporary science in efforts to manage at larger spatial and longer time scales and of the need to look at secondary and tertiary effects of any action, the ability to foresee such adverse consequences is almost always problematic. The practical effect of the precautionary principle then often becomes one that restricts interventions or experimentation until such time that enough is known. Coupled with the restrictive legal environment, the ideology of the precautionary principle has created a situation in which risk-aversion has become the norm, and maintenance of the status quo often dominates decisionmaking (even though the concept of a no action alternative is not without a host of its own risks, consequences, and impacts). With regard to recreation planning and management, decisions about development of overnight facilities, access systems (e. g. , trails, roads, and bridges) and other supporting tourism facilities often raise questions concerning possible impacts on endangered species habitat or aquatic and riparian environments. Often, the inclination is to avoid undertaking any action that might result in any adverse impact. Either actively or passively discouraging recreation use in riparian zones, for example, is justified on the grounds that such restrictions effectively preserve key habitat, even if evidence of any adverse...
