

Moulds Mildews and Mushrooms: A Guide to the Systematic Study of the Fungi and Mycetoza and Their Literature (Classic Reprint) (Paperback)

By Lucien Marcus Underwood

Forgotten Books, United States, 2016. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Moulds Mildews and Mushrooms: A Guide to the Systematic Study of the Fungi and Mycetoza and Their Literature The increasing interest that has been developed in fungi during the past few years, together with the fact that there is no guide written in the English language to the modern classification of the group and its extensive but scattered literature, has led the writer to prepare this introduction for the use of those who wish to know something of this interesting series of plants. With nearly a thousand genera of fungi represented in our country alone, it was manifestly impossible to include them all in a pocket guide. A line must be drawn somewhere, and it was decided to include: (1) Conspicuous fleshy and woody fungi, (2) The cup-fungi, since so little literature treating of American forms was available, and (3) Genera containing parasitic species. Most of the genera of the so-called Pyrenomycetes and many of the saprophytic fungi imperfecti are therefore omitted from special consideration. It is hoped that for the groups treated, the synopses...
